

## DENY EITHER SIDE MUNITIONS OF WAR

**President Determines  
Strictest Neutrality Must  
Be Observed With Mexico**

## DECIDED AT CONFERENCE

**Firm Feeling in Congress Favors  
Giving Both Sides Equal Oppor-  
tunity to 'quip Themselves**

## EXAMINES OTHER PHASES

WASHINGTON, July 23.—President Wilson has determined that no faction in the present Mexican revolution shall obtain arms or ammunition from the United States and neutrality must be observed in its strictest sense. This was the interpretation of the neutrality laws decided upon to day after conferences with Senator Bacon and Representative Flood, chairman of the two congressional committees on foreign relations.

**Will Treat All Sides Alike.**  
While the Mexican rebels have been getting no arms heretofore, to day's developments meant all the Huerta government will be deprived the privilege previously given them and the United States will treat all sides alike in the present dispute. The situation was precipitated by the recent complaints of the constitutionalists and their sympathizers in this country that if the United States did not virtually assist the Huerta government by selling it munitions of war a termination of hostilities would be possible.

Sentiment in favor of a new policy grew in congress to such extent that to day a canvass was made of the foreign relations committees in both houses dealing with foreign relations. It was found that there would be little objection to repealing the joint resolution of March 14th, 1902, giving the president discretionary power to prohibit exportation of arms or munitions of war to countries where domestic violence existed but permitting him to allow the legally constituted government of any country to buy supplies as usual. Senator Bacon, however, reiterated as he left the white house to day that the Huerta administration could not be considered a legitimate successor of the Madero regime or a legally constituted government. The constitutionalist representatives had protested to the state department that inasmuch as the Huerta government had not been recognized it ought not to obtain arms. This construction of the case found favor in official circles and while the repeal of the resolution of March 14th, 1902 was considered by the administration as the way of equalizing conditions it was decided that the same purpose could be observed by denying ammunition to all factions. There is nevertheless, a firm feeling in congress in favor of lifting the embargo on arms and giving both sides an equal opportunity to equip themselves.

**Sentiment Gains Favor.**  
This sentiment gains favor especially among those who believe that the Carranza rebels have public opinion behind them in Mexico and if given the arms with which to supply their large unequipped forces the revolution would end speedily in their favor.

For the present, however, the administration will issue orders to its agents everywhere to keep arms from entering the rebellion-torn country. This will interfere materially with the plans of the Huerta forces, since orders for large supplies of arms and ammunition are said to have been placed with firms in the United States very recently. Although the constitutionalists hold no secrets of consequence, they have demoralized the railroad systems and it would be difficult for the federalists to get munitions transported into the interior after importing them from Europe. The president examined other phases of the Mexican situation with Messrs. Bacon and Flood, who said later that no action of any kind or pronouncement of policy was likely until after Ambassador Wilson had conferred with administration officials here.

Acting Secretary Roosevelt conferred at length on the situation with Rear Admiral Frank E. Beatty, commander of the fourth division of the Atlantic fleet, who has just returned with his flagship, the Minnesota, from a tour of duty in the Gulf of Mexico. Mr. Roosevelt said afterwards that the conference was entirely informal and unofficial; that he sought to obtain first hand the impressions which Admiral Beatty gained while in Mexico. Admiral Beatty is here on leave to visit his family.

State department reports today said that the demonstration in Mexico City yesterday in compliance to the new Japanese minister was attended by about 2,000 persons, nearly all of whom were students. The laboring class was said to be conspicuous by its absence. It was stated that only one anti-American demonstration was made and that the police were under strict orders immediately to suppress any anti-American demonstration on the part of the crowd.

It is said that a movement is on

## CURRENCY REFORM BILL TROUBLES

**INDEFINITE SUSPENSION OF BILL BY  
DEMOCRATS IS FORECASTED**

Representative Bulkley Indicates Desire to Reopen Discussion of Principles Underlying the Measure—'Insurgents' Force Amendment Through.

WASHINGTON, July 23.—Indefinite suspension of the troubles of the administration currency reform bill by the Democrats of the banking and currency committee was forecasted to day. Representative Bulkley of Ohio, a member of the committee indicated a desire to re-open the discussion of all principles underlying the administration bill. Representative Bulkley gave notice that he was not prepared to decide his position in relation to the policy of placing the entire banking system in the hands of the government controlled banks as proposed by the bill.

This is a basic point in the administration bill and one which President Wilson has championed in no uncertain way. In addition to threatening an interminable discussion of the measure which Chairman Glass and President Wilson are endeavoring to hurry along the committee 'insurgents' to day succeeded in forcing into the bill, tentatively at least, the much discussed and once rejected scheme of prohibiting interlocking directorates in the banks to be included in the proposed federal reserve system. By a vote of seven to five Chairman Glass was instructed to prepare such an amendment as a separate paragraph of the bill. The instructions were included in a resolution presented by Representative Wingo. The conference defeated by a vote of 6 to 5 a proposition presented by Representative Wingo providing that the President should summarily dismiss any member of the proposed federal reserve board or any director of the proposed regional reserve banks who should directly or indirectly engaged in stock speculation.

The conference again reconsidered its action in regard to the term of maturity of commercial paper rediscountable by the reserve banks and placed the term at 60 days instead of 40.

During the discussion of the powers of the federal reserve board the conference adopted an amendment to the paragraph authorizing the board to require or permit a reserve bank to rediscount the paper of any other federal reserve bank.

## MUST APPEAR IN UNITED STATES COURT OF APPEALS

**American Tobacco Co. and United  
Cigar Stores Co. Must Appear in  
Court Aug. 21.**

New York, July 23.—An order citing the American Tobacco Company and the United Cigar Stores company to appear in the United States court of appeals August 21 was issued to day by Federal Judge Hand. The two companies are directed to show cause why the circuit court's dissolution decree against the so-called tobacco trust should not be corrected to conform with the mandate of the United States supreme court.

The order is in response to the proceedings instituted 18 months ago by Otto S. Jones, acting for himself and other retail dealers. Jones alleges that because of "discrimination and oppression practiced by the American Tobacco" he was driven out of business.

## KLEIN ELECTED PRESIDENT.

Philadelphia, July 23.—Henry Klein of Chicago was to day elected president of the National Shoe and Leather Finders association in convention here.

foot in Mexico City to raise funds to defray the expense of transporting destitute Americans from the capital to Vera Cruz. For several weeks the government and the American Red Cross have been bringing indigent refugees from Mexican ports to Galveston, Texas. Already several hundred who were without means have been brought to the Texas port.

## Face Starvation.

El Paso, Texas, July 23.—Huddled in two houses on the main street of Madera, Mexico, the Americans who are besieged by bandits, had been reduced practically to starvation when a messenger left there fourteen days ago. He arrived here to day after a hard experience traveling overland through mud. He said the bandits are surrounding the town bent on murdering the Americans, after much trouble they have given some cowboys, who attacked and killed two members of the bandit band while stealing cattle and are firing their rifles into the little settlement at intervals.

He declares all canned goods had been exhausted when he left and the Americans had been reduced to subsistence on meat and a little flour. There are some Englishmen and other foreigners in addition to the Americans.

## Would Virtually Declare War.

Washington, July 23.—Representative Smith of Texas today presented to the war department a request from an El Paso newspaper that a band of armed Americans be permitted to cross the border in the relief of Americans said to be endangered at Madero, Mexico. Mr. Smith was told that such an act would be a violation of neutrality laws, a virtual act of war and that United States troops would prevent it if necessary.

## SOUTHERNERS UNABLE TO GAIN ANY GROUND

**ATTACK ON KIANG NAN ARSENAL IS  
REPULSED EARLY THIS MORNING**

Rebels Deliver Attacks Simultaneously From Three Sides—Estimates Place Casualties at One Thousand for the Most Part Innocent Peasants.

SHANGHAI, July 24.—Southern rebels, reported to number 10,000, attacked Kiang Nan arsenal at 3 o'clock Wednesday morning, the defenders not exceeding 2,000, were strongly entrenched and assisted by the navy, repelled three separate attacks. The fighting lasted until 7:30 o'clock. According to the estimates 600 rebels were killed. Another attack was also repulsed at 1 o'clock Thursday morning the southerners being unable to gain any ground. Some reports say that only 3,000 southerners were engaged in the attacks, but their casualties largely exceed the original estimate. Many of the killed were civilians. The attacks were delivered simultaneously from three sides. The thick vegetation and insufficiency of men prevented the garrison from attempting a sortie and enabled the rebels to fall back to their camps and reorganize their forces.

Reports are current that Japanese were fighting in the southern ranks. Foreign volunteers were called out to guard the settlement. A few shells burst in the French concession and several Chinamen were injured, but no foreigners. The latest estimates place the casualties at one thousand for the most part innocent peasants. The flagship Hai-Chu poured a deadly fire on the attacking forces.

It is expected that a foreign naval brigade will be landed. Volunteers are erecting barricades around the approaches to the arsenal.

Many shells from the arsenal fell into the French concession, damaging the houses and much damage was done to the Chinese city. Many of the southerners fled to the French concession where the police disarmed them.

## OFFICIALS SOLVE PROBLEM OF MOVING 350 POUND FUGITIVE

**Man Will Be Slid Down Chute to Reinforced Ambulance For 142 Mile Trip to Milwaukee.**

Milwaukee, Wis., July 23.—Milwaukee police officials today solved the problem of moving "Gibraltar" Frank Horatz, the 350 pound fugitive, who is wanted here on a charge of abandonment but who could not be returned from Janesville, Wis., because his legs were too weak to bear up the weight on his body and because Janesville officials refused to permit a derrick being used in loading the man on the cars. Commissioner William Spindler has decided to send a reinforced ambulance on the 142-mile trip and has made arrangements to have a slide made so that "Gibraltar" can be slid down a chute from the second floor of the Janesville asylum into the ambulance. It is also planned to pack the fugitive in excelsior so that the movement of his body will not wreck the ambulance.

Horatz has been held at Janesville for several months with the hope that the strength of his legs would return and that he might be brought here on the train. But the recovery did not occur and the board bill of the wanted man is said to have reached such an amount that the local officials decided to have him brought back here at any cost before his normal appetite returns.

## MRS. ELLA FLAGG YOUNG MAY RESIGN AT NEXT BOARD MEETING

**One of the Most Prominent Women  
Educators of the Country Indicates  
Intention of Resigning.**

Chicago, July 23.—Three members of the Chicago public school board stated to day that Mrs. Ella Flagg Young, superintendent of Chicago schools and one of the most prominent woman educators of the country, had indicated her intention of resigning. Mrs. Young herself refused to discuss the subject, adding: "I will not state what may come out at the next board meeting." Mrs. Young who is in her sixth year, has devoted her life to educational work. She is the author of numerous works on education and has been at the head of several national organizations. In 1910-11 she was president of the National Educational association.

As head of the Chicago schools her salary is \$10,000 per year.

## J. R. GRANT FILES SUIT FOR DIVORCE.

Goldfield, Nev., July 23.—Jess Root Grant, youngest son of former President U. S. Grant, filed suit for divorce to day from Elizabeth Chapman Grant. Desertion was the only allegation. They have two grown children. Mr. Grant has made Goldfield his home for the last six months.

## LOBBY COMMITTEE ON HIGH SPEED

**Nearly Five Hundred Mul-  
hall Letters are Read in-  
to Record in Short Time**

## HOPE TO FINISH FRIDAY

**Committee Makes Rapid Pro-  
gress and May Get Through  
Correspondence Friday**

## MULHALL ON STAND AN HOUR

WASHINGTON, July 23.—The senate lobby committee put on full speed ahead to day and in an unusually short session got into the record nearly five hundred letters of Martin M. Mulhall, alleged political worker and legislative detective for the National Association of Manufacturers. Mulhall was on the stand only about an hour after the noon recess, but in spite of the short session the committee made rapid progress and members hoped to night to get through with the correspondence some time Friday. Mulhall's testimony to day covered a slack period in the summer and fall of 1909 and the early part of 1910 when there was nothing to do in his line except to work on strikes, tinker at a few odd jobs in politics and keep things generally moving in Washington. In several letters Mulhall told of a desire on his part to see Charles F. Murphy, "boss of Tammany Hall," in the interest of the candidacy of George Gordon Battle for governor of New York. He said he never saw Murphy on this matter.

Many of the letters to day spoke of an effort to have F. C. Schwedtman, secretary to Van Cleave on the public documents, which Mulhall wished to get, including the report of the national monetary commission. Questioned by Senator Rees, Mulhall said the association was interested in that report, but he didn't know just how. He swore that copies of the congressional record were franked to most of the prominent members of the N. A. M., and in one letter he hinted that he and James Emery counsel for the National association of Manufacturers could get almost any document and frank it out. Neither Senators Cummins nor Nelson, Republican members of the committee, appeared to day at the hearing. Although neither would discuss the matter, it is generally known that they claim the Democrats have been playing politics with the investigation, particularly in the case of S. W. McClave, Republican candidate for congress in the sixth New Jersey district, defeated in a special election yesterday. McClave was brought into the case a few days ago by Mulhall. Senator Nelson declared publicly the next day he didn't know the committee "was being used for campaign purposes" and Senator Cummins has not been present at any hearing since except for a few minutes.

## GOVERNMENT HORSE BUYER HELD ON BIGAMY CHARGE

**Alleged to Have Married Two Wealthy  
Widows Within Three Months  
—In Default of Bond He Is in  
Jail.**

Kansas City, Mo., July 23.—A. G. Jacobs, a government horse buyer, was bound over to the Wyandotte district court in Kansas City, Kan., to day on a bigamy charge made by Mrs. Mary B. Paul. His bond was fixed at \$1,500, his default of which he was placed in jail.

Last December it is alleged, Jacobs married Mrs. Cora A. Andrews, a wealthy widow of Kansas City, Mo. A month later the left for northern Nebraska on a visit.

Feb. 8, this year, Jacobs met Mary B. Paul, another wealthy widow and married her the next day while his first wife was away.

Mrs. Mary Paul Jacobs learned of the dual life of her husband two weeks ago and after obtaining a divorce commenced suit for his citation on a bigamy charge. Mrs. Cora A. Jacobs, his first wife, has sent word she will appear against Jacobs. Jacobs is 40 years old and has been connected with the government a number of years.

## WILL BE INVESTED IN SCHOOL BONDS.

## SWISS GUARDS CLAIMS ARE FLATLY REJECTED

**VATICAN IS REPORTED IN VERITABLE  
STATE OF SEIGE**

Three Leaders of the Meeting Among the Guards Have Been Expelled—Letter From Cardinal Merry Del Val Strongly Condemns Attitude of the Guards.

ROME, July 23.—Throughout the day the vatican was in a veritable state of seige. This was the outcome of the mutiny of the Swiss guards whose demands, in the form of a memorial relating the grievances and setting forth the conditions on which they would remain in the service were flatly rejected today. Three leaders in the movement were expelled from the vatican. Four others left tonight and twelve have requested leave to depart for their homes in October.

Those who left were accompanied to the gates of the vatican by their comrades. At the moment of separation they cried "viva Garibaldi." Some of them joined in signing the Manifesto. Never before was such a scene presented in front of the vatican. Yesterday the guards were relieved of their cartridges and today even their rifles were taken from them as it was discovered that they had succeeded in concealing cartridges. Count Cecceperli, commander of the gendarmes, has been ordered to hold his men in readiness for emergencies. They are in control of all the exits and have instructions to prevent any of the guards from leaving the building without express permission or from communicating with those outside. The entire neighborhood is patrolled by strong forces of police.

Serious trouble was expected when the guards were notified that all their claims had been rejected and it had been arranged that any of the guards attempting a demonstration should be arrested by the papal gendarmes and turned over to the Italian police for transportation to the Swiss frontier. When the reply to their memorial was read the commander and other officers, armed with revolvers stood ready to suppress any show of force. A letter was read from Cardinal Merry del Val, the papal secretary of state, strongly condemning the attitude of the guards. This was the last straw, as the guards had hoped that the cardinal would favor their side. They decide to maintain a relatively calm attitude, wishing, as they themselves expressed it, to obtain their rights through persuasion rather than violence.

## THIRTEEN CHARRED BODIES ARE RECOVERED FROM RUINS

**Partial List Contains Names of Seven Identified Dead, Thirty Reported Missing and Fifty-seven Survivors.**

Binghamton, N. Y., July 23.—Thirteen bodies burned beyond recognition were to day recovered from the ruins of the overall factory of the Binghamton Clothing company. The first was found near the center of the debris strewn cellar shortly before noon. Late this afternoon eleven more were recovered at a point near where the stairway led to the entrance of the building. The thirteenth body was found to night. It was identified as that of John Schermerhorn, the engineer, by a pair of rubber heels he is known to have worn.

One of the charred bodies is believed to be that of Nellie Connor, the forewoman, who sacrificed her life in an effort to save those in her charge. It is still impossible to accurately estimate the number of dead. At least 50, probably more, are believed to have perished in the flames. A partial list compiled by district Attorney Meshever, contains the names of seven identified dead, thirty reported as missing and fifty-seven survivors, some of whom were injured. At least 101 persons are said to have been in the building when the fire broke out.

## RAILROADS FIGHT AGAINST BURLESON

**WOULD PREVENT INCREASE IN SIZE  
OF PARCEL POST PACKAGE**

Roads Now Receive Fifty Per Cent of the Pay Collected by Express Companies For Carriage of Packages and Would Lose Much by Proposed Change.

WASHINGTON, July 23.—Railroad representatives today joined in the fight to prevent Postmaster General Burleson from increasing the size of parcel post packages transmissible through the mails and reducing the rates, to become effective August 15. A delegation representing the railroads generally throughout the country laid their complaint before senators and representatives and prepared to protest formally against the changes to the interstate commerce commission.

The movement in the senate itself to forestall the department changes, by repealing the section of the post law under which the postmaster general claims the right to regulate rates and sizes, further crystallized when Senator Bryan of Florida introduced a joint resolution to repeal the legislation in question. Another development today was the postponement of the legislation demanded by the senate postoffice committee by Postmaster General Burleson of his authority to inaugurate the changes from tomorrow until Friday. In protesting against the changes the railway representatives said that at present the roads received fifty per cent of the pay collected by express companies for the carriage of packages and complained that they would lose from \$15,000,000 to \$20,000,000 a year on business from the express companies through the reduced rates and increased maximum limit on the size of the packages.

It also was pointed out that the roads would receive no compensation from the government for carrying the very business for which the express companies had paid them millions. It was urged that in the enactment of parcel post law congress allowed the railroads five per cent additional pay for the increased business placed upon them and if the proposed changes were to be made the roads would be entitled to a further increase in compensation. The delegation suggested that the matter would be carried to the courts if necessary.

Several inquiries were made during the day of the interstate commerce commission as to its part in proposed changes. The law requires the commission to give its consent after investigation to proposed changes by the postmaster general. Officials gave out the information that an investigation of rates and sizes had not been held in the sense that public hearings had been granted but that the commission's approval had been given to the postmaster general.

## CIPHER TELEGRAM UPSETS BRYAN ENTERTAINMENT

**Secretary Spends Two Hours Deciphering Message, but Refuses to Discuss the Contents.**

Adel, Iowa, July 23.—The whole local entertainment plan for Secretary Bryan was to day sent flying to the four winds by a six hundred word cipher telegram, evidently unexpected, which awaited the secretary of state here.

Mr. Bryan had planned to go directly to the home of S. A. Douglas, recently appointed postmaster here, to be his guest at luncheon. When he glanced over the message which was from Washington, however, he hurriedly dispatched one of the receiving party to the home of Mr. Douglas for his suit case, containing a code book and then retired to a hotel room where he spent two hours deciphering the message and writing another. He declined to discuss the contents of the message.

## SENATE TAKES FIRST PLUNGE INTO TARIFF

**Only a Few Paragraphs  
of Bill are Completed  
Before Adjournment**

## DEMOCRATS ARE UPHELD

**In Many Test Votes Republicans  
and Progressives Uphold  
the Democratic Leaders**

## OPEN DEBATE ON BILL TODAY

WASHINGTON, July 23.—The senate took its first plunge into the intricacies of the Underwood-Simmons tariff revision bill to day. At the end of a day of hard work only a few paragraphs of the voluminous measure had been completed when adjournment was reached today. On every test vote throughout the day the Democratic leaders were upheld in some cases receiving the Republican aligned with Progressive element. Detailed consideration of the bill began unexpectedly when it was found that no Republican senators were ready to deliver general tariff speeches. Senator Simmons, chairman of the finance committee urged that the senate should lose no time in pushing the measure to a vote and with the consent of the Republicans the reading of the bill line by line was begun. Tests of strength came upon a number of relatively unimportant issues embraced in duties upon chemicals and drugs. The Democratic ranks held solidly upon each vote. Upon the first vote when Senator Smoot opposed a reduction of the oxalic acid duty from 2.2 cents to 1.5 cents per pound, Senators Borah, Bristow, Crawford, Cummins, Jones, LaFollette, Norris and Works, Republicans and Senator Poindexter, Progressive joined the Democrats in endorsing the proposed reduction. On a subsequent vote to increase the duty on pyroxylic acid from ten per cent to 15 per cent twelve Republicans voted with the Democrats.

Democratic Senators evinced throughout the day the determination of the party managers to hold debate to a minimum. No Democratic senators participated in general discussion further than to give information as to the reasons for their favoring the bill.

The Republican senators criticised repeatedly the character of the estimates made by the Democratic leaders as the basis for the reduced duties. Several minor errors in the tariff handbook prepared by chairman Simmons and his staff of experts gave the Republicans an opportunity to question the authenticity of many estimates and to declare that the Democrats had no adequate idea of the amount of revenue that would be raised under the bill.

The reading of the bill probably will give way again tomorrow to open debate with Senator Weeks of Massachusetts as chief speaker on the Republican side.

## Boston Man Selected.

Charles Sumner Hamlin of Boston has been selected as assistant secretary of the treasury in charge of the customs service to succeed James F. Curtis who will retire Aug. 1. Secretary McAdoo to day formally recommended the appointment to President Wilson who is expected to send the nomination to the senate within a few days.

Mr. Hamlin occupied the same position during the second administration of President Cleveland. He has not been an applicant for the place and is understood to have declined it early in the Wilson administration, but will be urged to accept because of his intimate knowledge of customs questions. Mr. Hamlin has represented this government at various international conventions. He was special commissioner of the United States to Japan in 1897; commissioner at the convention between Russia, Japan and the United States the same year and commissioner at the convention between Great Britain and United States to settle seal fisheries controversies.

## MINNEAPOLIS MEN

### ARRESTED IN CHICAGO.

Chicago, July 23.—Joseph Peterson, John Hellman and Samuel Vidin, who said they were from Minneapolis, Minn., were arrested here today when they drove up in an automobile to the Chicago & Northwestern railroad station to get an automobile tool box that had been shipped from Minneapolis. Minneapolis police had notified police here that the box had been stolen. The men exhibited a bill of sale for the automobile and the police telegraphed to Minneapolis to have it verified.

## MID-SUMMER CONFERENCES.

Washington, July 23.—A series of mid-summer conferences was begun today by the interstate commerce commission. During the next two or three days matters relating to the physical valuation of railroads and internal questions of administration will be considered. The commission also will discuss and perhaps decide one of two pending cases of importance.

Both Legs Were Broken Off Just

Twenty Feet After Accident—Results  
of Events.

Main Spring, owned by W. A. Steed of Virden, broke both legs in the running race at Griggsville Wednesday afternoon and was so badly injured that the animal had to be shot. The accident occurred in the fourth race of the afternoon and the horse was second in the heat. Striking a hard place in the track the animal's legs were snapped off just above the ankles and the horse was going at such speed that it ran along probably twenty feet on the stubs of its legs before it could stop. The driver was thrown to the ground but it is thought his injuries are slight. The feature of the afternoon, the 2:20 trot, carrying a purse of \$500, was won by Merl Mc., driven by Ginger. Finishing fourth in the first heat the black mare came to the front and took the next three heats in spectacular fashion.

## WILL INSPECT OTHER SCHOOL BUILDINGS

School Board and Commissioners Decide to Make Tour of Inspection Before Revising Plans.

The members of the school board and city commissioners meeting in session with Architect C. W. Buckingham at the city hall Wednesday evening decided to inspect other school buildings of the kind contemplated for the proposed eight grade structure before revising the plans submitted for the higher priced building. The commissioners and council will leave for Edwardsville on the 6:58 C. & Q. Tuesday morning to look at a structure there similar to the one planned for this city. They will consider also the high school building at Marion as a model for the new eighth grade.

That the new building should be erected at once with the funds available, the board members and commissioners are well agreed. Lack of definite opinion as to the best method of cutting down the building cost as first estimated to a \$75,000 limit was the cause of this decision to look into the matter further. None of the members were in favor of economizing at the expense of the fire resisting qualities of the building. Some advocated the omission of top story with the retention of the rest of the plans practically as drawn up while others pointed out different smaller methods of economizing. About \$1,000 could be saved on the entire construction by the use of mortar one half lime instead of pure cement mortar. The omission of cement wainscoting was another of the small economies suggested. It was pointed out that if work commenced at this season of comparative dullness several thousand dollars might be saved on the item of labor. Another reason for deferring action was the possible misunderstandings and consequent law suits which might follow a revision of plans without a clear idea as to the change desired.

## MISS MARTHA M. CAPPS WEDS DR. WALTER FRANK

### CEREMONY SAID AT RESIDENCE OF BRIDE'S PARENTS.

Well Known Young People Plight Troth in Pretty Home Rite, Dr. J. W. Miller officiating—Will make Their Home in Mexico, Mo.

The marriage of Miss Martha Margaret Capps of this city and Dr. Walter Leslie Frank of St. Louis was solemnized Wednesday evening at 8 o'clock at the home of the bride's parents, Mr. and Mrs. Charles C. Capps, 252 Park street, Dr. J. W. Miller, pastor of Grace Methodist Episcopal church, officiating.

Seldom has the opportunity been given Jacksonville people of attending a home wedding, marked with such beauty and simplicity. All the appointments were of a charming character, so that it will linger long in the memory of the large number of guests present. It was a candle light wedding, for in the north parlor, where the troth were plighted, the only lights were from candles which had been artistically arranged. The soft lights interspersed with the green foliage lent a charm of unsurpassing beauty and loveliness to the nuptials. Green and white were the principal colors used in the north parlor, sweet peas and other flowers being artistically arranged. Especially was the bay window on the north side of the room given an added touch for in front and beneath the deep foliage, the young people stood during the ceremony. The living room was prettily decorated in pink and the stairway was done in green.

The bridal party entered while a trio of students of the Conservatory of Music played the wedding March from Lohengrin. The musicians were Miss Hazel Brown, Miss Helen Sorrells, violinists, and Mr. Viego Jensen, cellist.

The first to enter was Miss Eloise Capps, bridesmaid, a sister of the bride. She wore a gown of white voile, trimmed with shadow lace and carried a large basket of pink roses. Mrs. William Jenkinson was matron of honor. She wore a pink brocade and carried pink carnations. Miss Marian Capps, maid of honor, sister of the bride, wore a pink crepe chaise gown, trimmed with shadow lace and carried pink carnations.

The bride wore a gown of crepe chaise trimmed with over dress brocade, chignon and pearl trimmings. She wore a veil which was caught up by orange blossoms, the blossoms being used by the bride's mother at her wedding. She carried a shower bouquet of bride's roses. The groom and Mr. W. W. Turner, his uncle of Poplar Bluff, Mo., who acted as best man, entered from the east room. The ribbon bearers were Mary Janet Capps and Alfred Capps.

The ritual of the Methodist church was used in the marriage, read in an impressive manner by Dr. J. W. Miller. At the close of the service an appropriate prayer, written by the late Dr. L. D. McCabe of Delaware, Ohio, a relative of the bride, was given by Dr. Miller.

Mrs. J. J. Frank, mother of the groom, wore a gown of green chaise with black lace over dress; Mrs. James Baker was dressed in a crepe de chine with pearl trimmings.

Following the ceremony an elaborate wedding collation was served by Vickery & Merrigan. The dining room was artistically decorated in yellow roses, smilax and green foliage, the center table having at the corners candelabra with yellow shades.

The bride is the second daughter of Mr. and Mrs. Charles C. Capps and was born and reared in Jacksonville. Her education which was pursued at the Illinois Woman's college, was supplemented by a full course in domestic science at the same school, in which class she was recognized as one of the most proficient pupils. She was also an advanced pupil in vocal music. She is a young lady of charming manner and personality, a strong, fine character. For several years she has been the home maker, the mainstay of her invalid mother, whose cares and responsibilities she bravely assumed, while still a mere girl. She will be greatly missed in the home and in her circle of friends, but while all will regret the parting which last evening's ceremony necessitates, there are none but will follow with interest and good will her future fortunes.

Dr. Frank is the son of Mr. and Mrs. J. J. Frank of Poplar Bluff, Mo. He graduated from the high school of his home city and entered Illinois college, graduating with the class of 1908. While in college he brought honor to himself through his scholarship and was also an athlete. He was a member of Sigma Pi literary society. After leaving Jacksonville he attended Washington University Medical school for two years and completed his studies last year in the St. Louis Medical school. He has also served as an interne in the St. Louis City hospital. Dr. Frank is a young man of strong personality, possessed with exceptional talents and of genuine integrity. His work as a student in the medical field already bespeaks for him an abundance of success in his chosen profession.

Dr. and Mrs. Frank received many beautiful wedding presents. They expected to go to St. Louis last night and in a few days will go to Mexico, Mo., to make their home.

Among those from out of the city to attend the wedding were Mr. and Mrs. J. J. Frank and son Vernon, Mr. W. W. Turner of Poplar Bluff, Mo.; Mrs. Mary F. Kirk, Des Moines, Iowa; Mr. Harry Grier, Ft. Davis, Texas; Miss Vivian Brengle, Winchester; Mr. and Mrs. Oliver Capps, Joliet; Mrs. James

## GENERAL PICKETT.

The Friendship Between Him and Lincoln and Grant.

A NOVEL BATTLEFIELD SCENE

When the Blue and the Gray Joined in a Birthday Celebration—A Meeting With Grant in Washington—Lincoln's Visit to Mrs. Pickett.

In Mrs. Pickett's introductory chapter to "The Heart of a Soldier. As Revealed in the Intimate Letters of General George E. Pickett, C. S. A." there is an extremely interesting story. It appears that while at Richmond, just after the surrender, she was summoned to the door by a sharp rap. She gives a charming account of what followed:

With my baby on my arm I answered the knock, opened the door and looked up at a tall, gaunt, sad faced man in ill fitting clothes, who, with the accent of the north, asked:

"Is this George Pickett's place?"

"Yes, sir," I answered, "but he is not here."

"I know that, ma'am," he replied, "but I just wanted to see the place. I am Abraham Lincoln."

"The president?" I gasped.

The stranger shook his head and said: "No, ma'am; no, ma'am. Just Abraham Lincoln; George's old friend."

"I am George Pickett's wife, and this is his baby," was all I could say.

My baby pushed away from me and reached his hands to Mr. Lincoln, who took him in his arms. As he did so an expression of rapt, almost divine tenderness and love lighted up the sad face. It was a look that I have never seen on any other face. My baby opened his mouth wide and insisted upon giving his father's friend a daisy, infantile kiss. As Mr. Lincoln gave the little one back to me, shaking his finger at him playfully, he said:

"Tell your father, theascal, that I forgive him for the sake of that kiss and those bright eyes."

Mrs. Pickett explains the interest Lincoln showed in her husband by stating that it was through Mr. Lincoln's influence that her husband received his appointment to West Point.

One impression the book conveys is that of the kindly and generous feeling that existed between Confederates and Unionists graduated from West Point who had been friends before the war. An exhibition of this feeling was made at the time of the birth of General Pickett's first baby. Mrs. Pickett, telling the story, says:

On the occasion of my son's birth bonfires were lighted in celebration all along Pickett's line. Grant saw them and sent scouts to learn the cause. When they reported he said to General Ingalls: "Haven't we some kindling on this side of the line? Why don't we strike a light for the young Pickett?"

In a little while bonfires were flaming from the Federal line. A few days later there was taken through the lines a baby's silver service engraved, "To George E. Pickett, Jr., from his father's friends, U. S. Grant, Rufus Ingalls, George Suckley."

General Pickett, in a letter from Washington, relates another incident in which this same kindly feeling was manifested:

After breakfast we went, as arranged, to see Grant. I can't just tell you, my darling, about that visit. You'll have to wait till I see you to tell you how the warm hearted, modest old warrior and loyal friend met me; how he took in his hand of your heart-sore soldier—poor, broken, defeated, profession gone—and, looking at him for a moment without speaking, said slowly, "Pickett, if there is anything on the top of God's green earth I can do for you, say so."

When I started to go Grant pulled down a checkbook and said, "Pickett, it seems funny, doesn't it, that I should have any money to offer, but how much do you need?"

"Not any, old fellow; not a cent, thank you," I said. "I have plenty."

"But Rufus tells me that you have begun to build a house to take the place of the one old Butler burned, and how can you build it without money? You do need some."

"I have sold some timber to pay for it," I told him, and to show my appreciation and gratitude, unobserved, I affectionately squeezed his leg, when he called out: "Rufus, it's the same old George Pickett. Instead of pulling my leg, he's squeezing it."

Sugar For the Heart. Sugar is a splendid medicine for the heart in certain diseases of this organ. In others, such as oedema, it has no effect. In the London Lancet is reported the cure of a woman of seventy-seven with "rapid, irregular, feeble pulse, cyanosis and attacks of paroxysmal breathing" by the administration of four ounces of lump sugar every twelve hours, gradually diminishing the dose, for several weeks.

A New Way of Finance. Proprietor—If madame offers to pay for the hat don't show her the bill, and I will increase it. Somebody has to pay our bad debts. Messenger—But if she doesn't offer to pay? Proprietor—Then bring the hat back. We can't do our bad debts.—Fliegende Blätter.

Some people bear three kinds of trouble—all they had, all they have now and all they expect to have.—Edward Everett Hale.

## SECRETARY OF THE NAVY DANIELS GUEST OF LOS ANGELES PRESS CLUB

Nearly Two Hundred Newspapermen Gather to Honor Secretary at Novel Banquet Scene.

Los Angeles, July 23.—Secretary of the Navy Daniels went to the bottom of the sea here soon after he arrived here from San Diego aboard John D. Spreckels' Yacht Venetia. The descent was not made in a submarine, however, but in the banquet room of a downtown hotel, where Mr. Daniels was the guest of the Los Angeles Press Club. Nearly 200 newspapermen assembled to honor the editor who is now the mariner of President Wilson's cabinet and were the spectators when Neptune after wrecking the ship of state, hailed the secretary before the bar of his submarine court and placed him on trial for violating the traditions of the sea by substituting editorial language for the robust nautical terms of old.

Mr. Daniels sowed himself and heard himself talk back to Neptune reproving the old God of sea for living in a place so wet, persisting in the use of such obsolete terms as star board and port and not referring properly to the hurricane deck as the roof of the ship.

The banquet room was decorated to resemble a steamer, the ship of state, and an arm of lights worked the illustration of sinking and afterward transformed the banquet hall in a semblance of the sea bottom. A direct telegraph wire brought a greeting from President Wilson, while a wireless station received unauthenticated messages signed William Grape Juice Bryan, T. Rausmittem Kaiser Wilhelm, the Mikado and other notables. The T. Rausmittem despatch dated at a hunting camp in Arizona, disrupted the wireless. The chamber of commerce entertained the secretary at a smoker before the banquet.

PROSPECTS FOR BALKAN  
PEACE MUCH IMPROVED

Roumania Using Influence Toward Conciliation—Powers Reach No Decision on How to Deal With Turkey.

London, July 23.—The prospects for peace among the Balkan states were much improved to day, the king of Roumania using his influence towards general conciliation. Difficulty, however is expected from the extreme attitude of Greece in claiming possession of Kavala and Drama as well as Saloniki.

The powers seem to have reached no decision how to deal with Turkey. Lord Morely of Blackburn questioned on this subject in house of Lords tonight deprecated public discussion of such a critical situation. He practically repealed Premier Asquith's warning to Turkey. He said he was unable to state what action the powers were prepared to take and added that the British government still desired to carry out a policy of supporting the Ottoman government in the re-organization of its administration and finances.

Davenport, 12-9; Quincy, 1-2. Davenport, Ia., July 23.—Couchman and Donley, pitchers from the Interstate league, won a double header for Davenport over the Quincy league leaders today, 12 to 1 and 9 to 2.

Both Quincy pitchers were rapped hard and were given ragged support. First game—R. H. E. Davenport, 0 0 0 12 72—12 4 2. Quincy, 0 0 0 0 0 0—1 7 3. Batteries—Couchman and Peters; Willis and Wolfe. Danville, 8; Springfield, 5. Springfield, Ill., July 23.—Lelivelt weakened in the final innings and Danville batted out a victory 8 to 5. Delave who finished the game for the Watchmakers was also hit hard. Club. R. H. E. Springfield, 1 0 1 0 0 0—5 7 5. Danville, 0 0 0 0 0 0—8 12 3. ### SOME OFF-SIDE CHUTES

The last sad rites over the remains of the late "Jiggs" Donahue were held at Springfield, Ohio on Tuesday. Four coaches 1.6m Charles Comiskey and from 300 Canton of Minneapolis were recovered, and Walsh and Billy Sullivan represented the White Sox, world's champions of 1906, at the funeral.

"Wee" Willie Sudhoff, an old time slabbman for the Browns is being held at the detention hospital at St. Louis, a hopeless mental wreck. It required three husky policemen to conduct the mid-set from his home to the hospital Tuesday evening. An old injury to his head, when he was "beaten" several years ago is supposed to be the cause of his present unfortunate condition. In his day, Willie was the peer of any of them in the art of flinging the sphere.

One reason for Deerfoot Tom Needham backstopping so regularly for the Cubs of late has leaked out. Rumor has it that Manager Evers and Roger Bresnahan have nearly arrived at the parting of the ways. Bresnahan's frequent occupancy of the bench on the present trip is said to have been caused by his refusal to catch according to orders and for indifferent work. The breach is widening and the factions in the club line-up are enjoying the fracas.

As if his Athletics had not heaped trouble enough upon the other seven teams of the American League, Connie Mack announces Jack Coombs will be ready to take his turn on the slab commencing Labor Day. Jack is convalescing on his farm near Kennebec, Maine, where he has been ill since the opening of the season.

If reports coming from St. Louis prove true, Bobby Wallace, the veteran, has taken part in his last game. In one against the Athletics on Monday he went to bat as a pinch hitter and was hit in the left wrist by a ball thrown by pitcher Bush. It is believed a small bone in his arm has been broken. In his twenty years in professional baseball this is the first serious accident to overtake Roderick.

Roy Bentley, a youngster with the Monmouth team of the Central association, pitched a no-hit, no-run game against Ottumwa, the league leaders Tuesday. In the nine innings, only thirty men faced him; he passed one and struckout seven.

Joe Tinker has again incurred the wrath of Tom Lynch for arguing with Snelling Al Orth, the umpire, and has been "set on the ground" indefinitely.

Capt. Stuart W. Wise at Wakefield, Mass., has shattered all records for consecutive bulls' eyes at 800 yards. At the annual meeting of the New England Military Rifleman's association he made 108 perfect shots. The previous record, 57, was made by J. W. Heeslan of New York at Sea Girt last year.

Nearly all season George Moriarty has been shunted from third base to the bench by Detroit experimenting with "new blood" at the far corner. The Chicago Stock Yards kid is now being used regularly in the line-up, and from the manner he is slugging the homerside it will take a Lord or a Foster to convince Jennings that George is ready for the bushes.

Releases announced Wednesday included Walter Schaller, utility outfielder of the White Sox, who goes to the San Francisco club, with a string attached. Louis H. Fine, ex-Sox and Minneapolis pitcher, who for two seasons, has been general utility with Kansas City's Blues, has been going along nicely with the stick the past two years, and his release from a weak hitting aggregation comes as a surprise.

The Interstate league, composed of teams representing Erie, Pa., Akron and Youngstown, O., and Wheeling, W. Va., went on the rocks Sunday, with Erie as pennant winner and a clean slate of 1.000 percentage. The four-club circuit was a losing proposition, and the players, by reason of default by managers, became free agents. St. Joseph, Mo., in the Western League, made a raid in the Champion Erie team and signed seven of the players. Many of the other players have jumped the nation agreement and cast their lot with the new Federal League.

Jesse Tannehill, ex-star National and American league hurler has been unconditionally released by St. Joseph in the Western. Jess has officiated in but six games this season—enough to convince him that the "kick" had deserted his one time grand wing.

Helme Zimmerman has returned to Chicago to have the Cub physician look after his injured foot. What at first was supposed to be only a superficial mishap, has, during the slugger's lay-off developed into a matter of much concern to the Cub's manager and president.

## DOING

### Not Much Difference What You Do

If you have your wages all spent by the time you get them—might as well be a slave and be done with it! Slaves get their board and clothes and a place to sleep—and that's about all the man has who only has his week's wages long enough to divide them between the grocer, the butcher, the rent man and the coal man.

Quit working for the grocer and the others—save 20 per cent and have more in your pocket. You can do it by paying cash, and we will let you have all the money you need to start. You can pay it back a little each week or month.

### STOCK MARKET BECOMES REACTIONARY

SETS MORE LOW RECORDS IN  
GOVERNMENT ISSUES.

Movement Was Narrow and Trading  
of Small Volume—Trading Was  
Extremely Dull in the Late Hours.

(By Associated Press)

New York, July 23.—From its  
irregular drift of the previous ses-  
sion, today's stock market became  
reactionary with more low records in  
government issues, New Haven and  
some of the doubtful specialties,  
chiefly petroleum. The movement  
was comparatively narrow and trad-  
ing small in volume. The Mexican  
situation loomed more prominently  
than at any time in weeks, but was  
less depressing than the further de-  
cline in 23 government, which yielded  
to 96½. Sales of these bonds in  
part at least, were evidently for ac-  
count of small interior institutions  
and rumor had it that some facility  
hard bonds of this issue had changed  
hands "over the counter" at a  
price well under the lowest stock  
exchange quotation. Trading be-  
came extremely dull in the late hours  
save for a smart movement in Amal-  
gamated Copper which failed to im-  
part any material strength elsewhere  
the closing again inclining to heav-  
iness, particularly in New Haven.

## GOOD ROADS ADD VALUE TO FARM LANDS

More Than Pay For the Expense of Constructing Them, Says the Department of Agriculture.

It is believed among those well posted on the building of roads, that a good road adds value to farm lands more than the cost of construction. The United States Department of Agriculture has just issued a statement on the subject, gleaned by public roads throughout the country. In every instance where the roads are made good, the cost of the farm land has increased. To illustrate the point the department cites the following cases:

In Lee county, Virginia, a farmer owned 100 acres between Ben Hur and Jonesville, which he offered to sell for \$1,800. In 1908 this road was improved, and although the farmer fought the improvement, he has since refused \$3,000 for his farm. Along this same road a tract of 188 acres was supposed to have been sold for \$6,000. The purchaser refused the contract, however, and the owner threatened to sue him. After the road improvement and without any improvement upon the land, the same farm was sold to the original purchaser for \$9,000.

In Jackson county, Alabama, the people voted a bond issue of \$250,000 for road improvement and improved 24 per cent of the roads. The census of 1900 gives the value of all farm lands in Jackson county at \$4.90 per acre, the selling value at that time was from \$8 to \$15 per acre. The census of 1910 places the value of all farm lands in Jackson county at \$9.79 per acre, and the selling price is now from \$15 to \$25 per acre. Actual figures of increased value following road improvement are shown.

**Haulage Only Added Value.**  
As the roads in no way effect soil fertility or quality of the farm, advances are due essentially to the decrease in the cost of hauling produce to market or shipping point. Farms are now regarded as plants for the business of farming, and reduction in their profits through unnecessarily heavy costs for hauling or bad roads naturally reduce their capitalization into values. With reduced costs for hauling, profits are increased; with the result that the farm plant shows satisfactory earnings on a higher capital value.

The automobile also has begun to be an important factor in increasing rural values where good roads are introduced.

Immigration is particularly marked where road conditions are favorable; in fact, the figures of the department seem to indicate that good roads indirectly increase the demand for rural property, and the price of farm land, like that of any commodity, is ruled by the relations between demand and supply.

**STATE CAMPAIGN IN VIRGINIA.**  
Richmond, Va., July 23.—The present week witnesses the opening of the campaign in Virginia for the governorship and other state offices to be filled at the election next November. The activities of the campaign are confined almost wholly to the Democrats, who will name their candidates at a state primary one week from next Tuesday.

The present outlook is for one of the tamer campaigns the Old Dominion has seen in years. On the Democratic side there are contests for only half of the places on the state ticket. The fact that the farmers are busy with their record-breaking crops is also detracting from public interest in the campaign.

Henry C. Stuart, of Russell, will receive the Democratic nomination for governor without opposition. B. O. James for secretary of state, A. W. Harmon, Jr., for state treasurer, and R. C. Stearnes for superintendent of public instruction, are also unopposed for the nominations.

The only contests in which any great interest is manifested are those for the nominations for lieutenant governor and attorney general. J. Taylor Ellyson of Richmond, the present lieutenant governor, is a candidate for renomination. Opposing him in the contest for second place on the Democratic ticket are Lewis H. Machen and Alexander J. Wedderburn, both residents of Alexandria.

For the nomination for attorney general the rival candidates are S. Gordon Cumming of Hampton, John Garland Pollard of Henrico and Samuel W. Williams of Wythe.

**STEVENSVILLE CELEBRATES.**  
Stevensville, O., July 23.—Military organizations and guests of prominence from many sections of the country gathered here today for the opening of a three days' celebration to commemorate an important event relating to the history of Stevensville. The events to be commemorated include the George Rogers Clark expedition and the explorations and military achievements of Baron von Steuben, the eminent German tactician who aided the American colonies in the revolution and in whose honor the city of Stevensville was named. On Saturday the celebration will conclude with exercises commemorating the day that a part of Gen. John H. Morgan's command carried the confederate flag through the streets of Stevensville, which was the farthest point north reached by the southern colors during the civil war.

**QUICK RELIEF FOR RHEUMATISM.**  
George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.—Adv.

## CHAMBER OF COMMERCE TO AID GOOD ROAD MOVEMENT

Resolutions Adopted at Meeting Held Yesterday—Want State Road from This City to Springfield.

The Chamber of Commerce showed a most enthusiastic and helpful spirit at their meeting Wednesday afternoon when resolutions were adopted purporting to aid the state and in others ways to bring about a better condition of roads. Not only in the resolution did they favor the levy of a road and bridge tax to equal the amount made to Morgan county from the state road and bridge fund for the purpose of constructing state aid roads in this county but they went on record as favoring the early construction of a state road from this city to Springfield. The resolution was presented by the Department of Rural Affairs and is as follows:

Resolved, By the Chamber of Commerce of Jacksonville, Ill., that it hereby requests the board of county commissioners of Morgan county, Illinois, to take all necessary steps, as soon as reasonably may be, to secure for Morgan county for the purpose of constructing state aid roads, all state aid possible to be had from the state board and bridge fund and to levy sufficient road and bridge tax to equal the allotment made to Morgan county from the state road and bridge fund for the purpose of constructing state aid roads in Morgan county.

Resolved, By the Chamber of Commerce of Jacksonville, Ill., that the department of rural affairs of the Chamber of Commerce be authorized and directed to confer with the board of county commissioners of Morgan county and the state highway department in the matter of securing state aid roads for Morgan county and the betterment of all roads in Morgan county.

Resolved, By the Chamber of Commerce of Jacksonville, Ill., that it favors the construction as soon as possible of a state aid road between Springfield and Jacksonville and requests the co-operation of the Chamber of Commerce of Springfield, Ill., the board of supervisors of Sangamon county, Illinois, and the board of county commissioners of Morgan county, Illinois, and of all interested in such a road, in securing the early construction of said road.

Resolved, By the Chamber of Commerce of Jacksonville, Illinois, that the department of rural affairs be directed to confer with the Chamber of Commerce of Springfield, Ill., the board of supervisors of Sangamon county, Illinois, the county commissioners of Morgan county, Illinois, the state highway department and any other municipal bodies interested, in the matter of the early construction of a state road from Springfield, Illinois, to Jacksonville, Illinois.

**MARKET PROBLEMS DISCUSSED.**  
Charleston, S. C., July 23.—The marketing of cotton was the principal subject of discussion by the South Carolina State Farmers' union which began its seventh annual convention today at the Isle of Palms. Other prominent speakers were Commissioner Watson of the South Carolina department of agriculture, and Dr. Bradford Knapp, head of the farm demonstration work of the United States department of agriculture. **NUNS LEAVE FOR LEPER COLONY.**  
Victoria, B. C., July 23.—Among the passengers sailing for the Orient were three nuns who have volunteered to spend the remainder of their lives working in the leper settlement on Sheklung Island near Canton, China. All three come from Montreal or its vicinity. A number of friends and acquaintances were on hand to bid the three young women Godspeed on the journey whence they will never return.

**BIXBY FACES TRIAL.**  
Los Angeles, July 23.—The case of George H. Bixby, millionaire banker of Long Beach, who is charged with contributing to the delinquency of two girls, is on the docket for trial tomorrow. Bixby was indicted and arrested as a result of a raid on the "Jonquil" apartment house, alleged to have been the headquarters for a gang of "white slave" dealers who operated for the benefit of men of wealth and social prominence in this vicinity.

## MOTORCYCLISTS

THROUGH DENVER.

Denver, Colo., July 23.—The old days when thousands of cyclists from all parts of the country were wont to gather each year for the national assembly of the League of American Wheelmen have been recalled by the present influx of motorcyclists for the annual convention and race meeting of the Federation of American Motorcyclists. The gathering was formally opened today with hundreds of devotees of the "chug-chug" machines in attendance. GOVERNOR DUNNE  
ATTENDS MATINEERACES AT NEW BERLIN WIT-  
NESSED BY CHIEF EXECUTIVE.Over Sixteen Hundred People See  
Interesting Program of Events—  
Automobile Race a Feature of  
Day's Calendar—Track Record  
Lowered in Free for All Trot.

Over sixteen hundred people, among them Governor Dunne and family, witnessed an interesting program of races at New Berlin Wednesday afternoon. The day was ideal and hundreds arrived via the automobile route while a special train from Springfield conveyed three hundred people to the racing grounds. The automobile race between William Hunter of Springfield and E. H. Donovan of Rochester, who went in to win the money for the driver who could lower the track record, was a feature of the day's calendar. Hunter won going the distance of five miles in 7 min., 46 sec. The old record was set by Otis Funderburg of Springfield last year, who made the distance in 7 min. and 24 sec.

Governor Dunne took a great deal of interest in the matinee and had a place in the judges' stand which was decorated in the stars and stripes. One of the best races of the card was the free for all trot, won by Silver Abby, owned by Ed Jerico, covering the distance in 1:05 1-2, thus lowering the track record for that event set by Silver Abby with a record of 1:06.

The following is the program:

COPPER MINERS STRIKE  
DEVELOPS FIRST VIOLENCECapt. Thomas Mathews Felled by  
Rock Hurlled by Striker—Tie-up  
of the Calumet and Heckla is Com-  
plete.

Calumet, Mich., July 23.—A general copper miners strike called here today developed its first violence to day when Captain Thomas Mathews of No. 4, shaft of the Calumet & Heckla mine was felled by a rock hurled by an unidentified striker. Mathews was stunned and suffered deep laceration of his scalp, but his condition is not serious. More than 10,000 men are said to be on strike. The conglomerate shafts of the Calumet branch, the only shafts in operation to day were shutdown at night, making the tie-up of the Calumet and Heckla complete.

There had been rumors of a strike since the first of the year when the Western Federation of Miners completed a campaign for memberships in this field. Several weeks ago formal demands were presented to the managers of the various mines. The unions asked the recognition of the organization, an eight hour day, a minimum wage of three dollars a day, abolition of the one man drill, and better working conditions.

The mine managers declare they will not accede to any of the demands made by the men. Several hundred deputy sheriffs have been sworn in but it is said they are to be used only to protect property.

GERMAN ARCTIC EXPLORER  
MAY HAVE BEEN RESCUEDMessage Received From Steamer In-  
dicates Rescue of Missing Party.

Bremen, Germany, July 23.—The rescue of the missing German arctic explorer, Lieut. Schroeder-Strantz, was apparently indicated in a wireless despatch received here today from the steamer Grosser Kurfurst which is cruising in Spitzbergen waters and is due at Tromsø Friday.

The message says: "Dr. Robitzsch of the German observatory at Cross Bay came on board yesterday at Moeller Bay and made important communications about Schroeder-Strantz. Help has been received. A detailed report will be sent by wireless from Tromsø."

From previous reports it was known that four members of the expedition had died after great privations and it was believed that Lieut. Schroeder-Strantz and ten others also had perished. Captain Rischer returned alone to Advent Bay early in the year after a terrible overland journey and reported that a disaster had occurred.

A Norwegian relief expedition was sent out but failed to find the missing men.

The Schroeder-Strantz expedition was composed of eleven Germans and five Norwegians. They started for the north in June, 1912, on board the ship Herzog Ernst. None of the members of the expedition had any arctic experience.

OTHER INSTITUTIONS OFFER  
SUPPORT TO CHICAGO BANK

State Bank Examiner Charles G. Rutledge formerly of this City, States Kenwood Trust and Savings Bank Is in Perfect Condition.

Chicago, July 23.—Offers of support from other institutions with expressions of confidence and heavy deposits by large business concerns, neutralized the effect of the explained run on the Kenwood Trust & Savings bank to day. Depositors were in line all day and withdrew \$104,000, while \$105,000 was deposited.

State Bank Examiner C. G. Rutledge issued a statement that the bank was in perfect condition with a large reserve and plenty of "quick" assets. The Joliet, Ill., National bank offered \$200,000 if it were needed, but the officers of Kenwood bank declared that they were able to pay every depositor without assistance.

No explanation of the cause of the run is forthcoming.

The Kenwood bank is a state institution with a capital of \$200,000.

UNIVERSITY TRUSTEES VOTE  
\$1,400,000 BUILDING PROGRAM

Commercial Building, Woman's Residential Hall and Engineering Hall Are Among Buildings Provided For.

Chicago, July 23.—The University of Illinois trustees today voted a building program calling for the expenditure of \$1,400,000 and a salary budget of \$1,147,229, an increase of \$250,000 over last year, owing to increased faculty membership.

The board decided to re-open the dental school which was closed in 1911 because of no appropriation. This is said to be one of the most important steps taken by the institution for several years.

Four thousand dollars for the extension of the campus and other new grounds is included in the budget. A \$150,000 commercial building, a woman's residential hall and an engineering hall at \$100,000 each are included among the buildings provided for.
